Summer is traditionally a time to work intensively in developing technique and artistry. Students come to class during the day when they are not as tired from everyday activities, including school and can focus entirely on their training.

Faculty includes Anthony Jones, Helen Hatch, Kaylie Bullock and Erin Drummond.

The **Summer Study** program was created to continue a healthy progression of in-person classes so students may improve faster and still explore a variety of dynamic classes to expand each dancer's movement vocabulary.

Dive in with our stellar staff accompanied by live musicians to gain strength, flexibility and learn techniques that reflect the diversity and range required by major dance companies. Summer Study is offered in our three spacious, air-conditioned studios with **Prep-Weeks**, **Two-week courses**, and **Single-Weeks** for scheduling flexibility.

It is our passion to develop students for success as artists physically and emotionally. Each student is supported, nurtured and given the tools to express their love of dance!

Come dance with us!
